

# Program Application

## Overview

Thank you for your interest in Aeronautica Windpower (AW) and our *Aeronautica Affiliates* program. The goal of the Affiliate program is to develop an international network of trained, competent businesses to provide support to our end user through all phases of wind turbine development. AW is interested in helping to promote businesses involved in the following areas of expertise: *(please check any which apply to your company)*

- Dealer / Sales\*
- Wind Site Developer
- Installation
  - Foundation
  - Turbine Erection and Assembly
  - Electrical / Interconnections
- Servicing/Operations and Maintenance
- Feasibility/Appraisal Studies
- Permitting/Engineering
- Financing
- Other \_\_\_\_\_

\*If interested in dealer/sales please fill out our supplemental Dealer Application which can be found at [http://aeronauticawind.com/aw/library/dealer\\_app.pdf](http://aeronauticawind.com/aw/library/dealer_app.pdf)

The *Aeronautica Affiliate* Program is created around a simple, mutually beneficial, non-exclusive relationship between AW and the affiliate in order to service end-user customers in your area who wish to receive additional local services that we as a manufacturer do not provide. It is our goal to develop longstanding relationships with our affiliates in which both parties can enjoy growth through reciprocal promotion.

By registering as an *Aeronautica Affiliate*, your company will be linked to the Affiliates directory on our website. This directory is designed to be a resource for end users to find necessary services to complete their wind energy project. Your company will also benefit from increased visibility and the searchability of being on our high traffic website.

## Contact Information

Person to Contact: \_\_\_\_\_

Position: \_\_\_\_\_

Company: \_\_\_\_\_

Address: \_\_\_\_\_

City/State/Zip/Country \_\_\_\_\_

Primary Phone: \_\_\_\_\_

Fax: \_\_\_\_\_

Email: \_\_\_\_\_

Website: \_\_\_\_\_

## About your local service area

What are the geographical extents of your service area? \_\_\_\_\_

What are the typical local wind speeds like in your area? Typical Speeds: (\_\_\_\_\_ m/s)

What is a representative price of electricity in your area? (\$.\_\_\_\_\_/Kwhr)

Does your local electrical utility offer any 'Net-Metering' options? Y / N

Explain: \_\_\_\_\_

Are there other Wind Energy companies in your area? Y / N

If so, who: \_\_\_\_\_

Please check the areas that apply: If more than one of the following characterizes your primary service area please rank 1 – 4.

Would you characterize your area as:  urban  suburban  rural  remote

Would you characterize your area as:  flat  hilly  mountainous  coastal, lakes

NOTES: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

## About your company

How long have you been in business? \_\_\_\_\_ years.

Type of organization  Corporation  Partnership  Sole Proprietorship

What is your current core business concentration? \_\_\_\_\_

How many employees? (\_\_\_) Full Time (\_\_\_) Part-Time (\_\_\_) Independent Contractors

Do you consider your organization trained or experienced in Wind Turbine systems already, or is this your first venture into this marketplace?  First time  Experienced

If experienced please tell us about your experience in wind energy:
